- ★ Chrysolite AB 4mm Bicone

Instructions:

Cross stitch DMC and silks with two strands. Cross Stitch Kreinik #4 braid with one strand. * For two blended DMC colors, use one strand of each color shown.

Back stitch triangular spikes in crown with one strand Kreinik 9294. Back stitch single spikes in between with one strand 3231.

Back stitch eyebrows and lashes with one strand DMC 310.

Back stitch all skin and mouth with one strand DMC 3371.

Instructions for eyelets: Using one strand Kreinik 096, come up at center point. Go down at bottom outside point, and come up again at center. Repeat for all additional outside points, pulling thread slightly to form a small hole in the center. After going down at the last outside point, bring needle up one fabric thread below center, thread through a chrysolite bicone, and bring needle down one fabric thread above the center. Do this twice through the center of the bead.
